TECHNOLOGY USER AGREEMENT

General Information

Internet, school local area and wide area network access are available to students, teachers, and employees at Monument Academy. Our goal in providing these services to students and teachers is to support a vigorous and rich curriculum by facilitating information access, resource sharing, innovation, and communication.

Students, parents, teachers and school employees may have access to:

1. Electronic mail communication with people worldwide;
2. The Library of Congress, university libraries, and other resource databases;
3. Unfiltered sources of information (no filtering system is 100% effective);
4. A student, parents of the student, and teachers with a legitimate educational interest may have access to *that* student's online grades, attendance, and other student information;
5. Staff and teacher created web pages;
6. Other resources as they are developed.

The information accessed through network services, including wireless services should reflect the educational mission and goals of Monument Academy. The school, in compliance with the Children's Internet Protection Act, has taken precautions to monitor and limit access to materials not in line with Monument Academy's mission and goals.

The following guidelines are provided so that you are aware of your responsibilities. They encompass the efficient, ethical, and legal utilization of the school's network service resources.
